

Postdoctoral position at LEPAMAP-PRODIS research group – University of Girona (Spain)

Position: Postdoctoral research fellow

Duration: 2 years

Expected incorporation date: 1st January 2023

Topic: Life Cycle Assessment (LCA) and Technoeconomic Assessment (TEA) of lignocellulosic materials and biorefineries. The selected candidate will be also allowed to participate in other ongoing projects of the research group.

Requirements:

- Holding a PhD in Chemical Engineering, Environmental Sciences, Materials Engineering or related fields (i.e. biomaterials, polymers, etc.).
- Count on an accumulated postdoctoral career of no less than 24 months.

Remuneration: 33,000 €/yr aprox. (gross salary) + 3,500 € for relocation and installation expenses (single payment).

Documentation:

- Abbreviated CV of the candidate ([model](#)).
- Accreditation, with certificates, of the accumulated postdoctoral career of the candidate with an indication of the periods of association with other bodies or institutions, accumulating a minimum of 24 months (other than that of the doctoral thesis).
- Accreditation of the research project and/or teaching at universities, research centers or organizations abroad that is being carried out at the time of the application.
- Doctor's degree.
- Proof of residence abroad at the time of application (rental contract, census registration, etc.).

All documentation must be in Catalan, Spanish, English or French. Otherwise, a sworn translation will be required.

Deadline: 6th May 2022
